What can we create together?

Every Pupurishu project begins with the same question: **what do you want people to feel, notice, remember or do?** We build the creative approach around your space, audience, timeline and budget.

Murals + Window Art

We create site-specific artwork that responds to the people who use the space. The goal is not simply to decorate - it is to give the environment a point of view.

Murals + Environmental Art

Mural pricing is developed around the actual project rather than a one-size-fits-all rate.

- Size + number of surfaces
- Design complexity + detail
- Surface condition + preparation
- Access, equipment + installation
- Travel, materials + timeline

- Removal or refresh needs
- Travel + installation access

Before quoting: We may request photos, approximate dimensions, location details and your preferred completion date.

Creative Workshops

Complete creative experiences for libraries, schools and community programs - without having to build the lesson, source the materials or manage the art activity yourself.

A ready-to-host creative program built around an age-appropriate project and clear theme.

- 45-60 minutes
- Up to 20 participants
- Project materials included
